

Nut Brown Ale

Source: Jamil Zainasheff

Extract:

7 lbs. Light LME
12 oz. Special Roast Malt
8 oz. Victory Malt
8 oz. Crystal Malt 40L
4 oz. Pale Chocolate Malt
1.7oz. Goldings Hops
Wyeast 1028 or Nottingham yeast

- Heat 2-5 gallons of water to 165°F
- Place grains in a steeping bag and steep at 160°F to 170°F for 30 min. Remove grains.
- Turn off heat and add malt extract, stirring until fully dissolved.
- Return to Heat, bring to boil for 5 min. then add 1.2 oz. bittering hops (Golding) and boil for 60 min.
- At 5 minutes remaining add .5 oz. Aroma hops (Golding)
- Turn off heat and cool mixture by placing kettle in an ice bath or using a wort chiller.
- Add mixture to fermenter, removing hops, and bring total volume to 5 gallons using non-distilled bottled water or filtered tap water.
- Aerate unfermented wort (shaking works well)
- Pitch yeast and ferment at 68F to 70F.

Other Options: For improved hop utilization and a lighter color try a late extract addition by adding 30% of the malt extract at the normal time and 70% of malt extract during the last 5 minutes of boil. For faster fermentation and lower finishing gravities try making a yeast starter. (See Steinbart sheet on making yeast starters).

All Grain:

9lb. 7oz. Maris Otter Malt
12 oz. Special Roast Malt
8 oz. Victory Malt
8 oz. Crystal Malt 40L
4 oz. Pale Chocolate Malt
1.7oz. Goldings Hops
Wyeast 1028 or Nottingham yeast

Infusion mash at 152°F for 1 hour. Sparge to 6.5 gallons of wort. Add 1.2 oz. Bittering hops at 60 minutes. Add .5 oz. Hops at 5 minutes. Cool mixture using an ice bath or wort chiller and add to fermenter. Aerate wort (shaking works well) and pitch yeast. Ferment at 68°F to 70°F until complete.
